Advertising Opportunities

The focus of Canberra Business News is on providing good quality content and advertising is therefore limited to advertorial.

Advertising is placed in the top rotating slider of the website (see the red arrow below):

The advertising links to an article through a read more button.

The following is needed for the advertisement:

- **Image** - An image 730 pixels (width) X 267 pixels (high). The image must not simply be a company logo
- **Slider text** -A heading and introductory text no longer than 180 characters (including spaces)
- **Article** - An article between 500 and 750 words. The tone of the article needs to be informative and conversational. Note: A hard-sell approach does not fit with this publication or audience.
